

EMPLOYMENT VACANCIES

In the interest of equal employment opportunities, it is the policy of the Perry Board of Education to announce and advertise all employment vacancies in this school district.

When a new or existing position, whether teaching or administrative, becomes open, the vacancy shall be posted in all school administrative offices. This is to allow any qualified personnel within the Perry Public Schools system an opportunity to apply for the position. Said vacancies will remain open for one week.

In addition to the above, employment vacancies for administrative positions, except superintendent, will be advertised through the local newspaper and, at the discretion of the board, through statewide newspapers, university placement offices, and the Oklahoma State School Boards Association.

Vacancies for the position of superintendent will be advertised as above and, at the discretion of the board, through out-of-state advertising media.

Teaching vacancies will be advertised through approved professional websites and/or local and state newspapers.
