

**QUALIFICATIONS  
PRINCIPALS**

It is the policy of the Perry Board of Education that persons employed as principals in this school district shall have completed, or be in pursuit of, a Master's degree with emphasis on administration, and that all such persons shall have not less than three years of teaching experience at the level to which they are assigned. All principals should have, or be working toward, a standard certificate in elementary or secondary administration.

Principals of schools within this public school system are employed to act as administrators in the senior high schools, grades 7 through 12, and the elementary schools, grades Pre-K through 6.

The reemployment of principals shall be based on an annual evaluation by the superintendent or designee and will be considered by the board members prior to the regular February board of education meeting each year. The superintendent is directed to inform affected principals of any decisions made by the board.

Principals shall assume administrative responsibility and instructional leadership - under the supervision of the superintendent - for discipline and for the planning, operation, supervision, and evaluation of the educational program of the schools to which they are assigned. All principals will observe the Code of Ethics adopted by their professional groups. Principals shall prepare and submit such reports as the superintendent may require for the purpose of reporting to the board, the community, and the State Department of Education.

A description of the duties and responsibilities of school principals may be found in the appropriate job description located elsewhere in this manual. Nothing in this policy manual shall be construed as limiting or expanding the terms of the employment contract.
