

STUDENT DEMONSTRATIONS AND STRIKES

The Perry Board of Education believes that in order to insure the orderly process of education and the business affairs connected with the schools, and the safety of persons and property, that certain procedures should be established in the event of disruptive demonstrations, strikes, or walkouts on school property or within school buildings.

Disturbances, or any other action resulting in the disruption of the orderly process of conducting school, will not be tolerated in Perry Public Schools. The board is required by law to provide proper school facilities and to maintain an appropriate program of instruction. Therefore, the following procedures shall be followed by school personnel in the event of any disruption of normal operations:

1. Make an announcement to the persons creating the disturbance that: "You are in violation of school board policy. You must return to your classes or vacate the premises. If you do not do this immediately, you will be dealt with under provisions of the law."
2. Notify central administration and/or proper authorities of potential difficulty.
3. When possible, assign someone to take pictures of participants, especially the leaders.
4. Record voices of participants when considered practical to do so.
5. Obtain list of participants and witnesses.

Officials from the central administration office will, upon receipt of notification of disruption of school, alert the proper authorities, and report to the scene of the disturbance.

The administrator in charge will request authorities to take proper steps necessary to return the site to normal operation. Proper legal measures will be taken to bring charges against the violators.

School facilities and equipment will be made available to law enforcement officers upon their request.
