**Fire Drill/Evacuation Procedures
Perry High School**

The fire alarm will sound for a fire or a fire drill. After a drill has been performed, the alarm will be silenced.

It is necessary for all students and staff to know the proper procedures in evacuation of buildings during an emergency of any type.

All students must leave the area in an orderly fashion. The teacher should close all windows and doors and take a class roll of students with him/her. Students and staff should not try to take personal belongings with them. Teachers should take roll when they are clear from the building.

Students in rooms 131, 133, 135, 137 and offices on the first floor exit through the door at the southeast section of the high school building and proceed to the student parking lot which is east of the auditorium.

Students in rooms 210, 212, 214, and 216 should exit down the fire escape stairs at the southeast end of the building and proceed east to the student parking lot.

Students in rooms 207, 209, 220, and 217 should proceed down the east stairway to the lobby, then south out the doors by the principal's office, then west to the area north of the Industrial Arts Building.

Students in the Library and rooms 203, 205, 228 and exit down the west stairway and out the west door of the building to the area north of the Industrial Arts Building.

Superintendent's Office staff exit the building through the west door and proceed to the area north of the Industrial Arts Building.

Students in the Band Room should exit through the north doors then east student parking lot.

Students in the Vocational Agriculture Building should go to the nearest door and proceed to the parking area south of John Divine Hall.

Students in the Auditorium should go out the south doors and proceed to the parking lot east of the Auditorium.
