

BIDS AND QUOTATIONS

No expenditure shall be made except in accordance with the provisions of an approved purchase order, and no contract involving an expenditure of more than \$50,000 for the purpose of erecting a building or making any improvements on school buildings shall be made except upon sealed proposals and to the lowest or best responsible bidder. This does not prohibit the district from erecting a building or making improvements on a force account basis. The term "force account" means the purchase of necessary materials, and the employment of necessary workmen, by the school district itself, rather than entering into a contract with a building or other contractor to construct the building or other improvement. No contract involving sums in excess of \$50,000 shall be split into partial contracts involving sums below \$50,000 for the purpose of avoiding the requirements of the Public Competitive Bidding Act.
